

# Bolivia

## Offering display idea

Print out a map of your state and a map of Bolivia. Place them a few feet apart on a bulletin or poster board. Make copies of this sheet and cut out the figures and have the children color them using a variety of skin tones and hair colors. For every \$5 you raise, tape a boy or girl to the bulletin board. For each person you add, overlap their hands to make a line. See if you can connect your state with Bolivia. If you can do that, can you also make a circle around the bulletin board?
